- NodeJS
- Wordpress
- Bootstrap
- Figma
- GitHub
- Firebase
- Canva

SOFT SKILLS

- Creativity
- Adaptability
- Collaboration
- Communication
- Time Management
- Organization

About Me

I'm deeply passionate about creativity and design, with extensive experience working on projects that combine technical skills with creative problem-solving. Throughout my journey, I've developed a strong foundation in bringing innovative ideas to life, whether it's through enhancing functionality, improving user experience, or exploring fresh design concepts. This hands-on experience has not only helped me grow professionally but has also allowed me to push my creative boundaries and tackle new challenges. My love for innovation drives me to continuously evolve and seek opportunities to collaborate and create meaningful work.

WORK EXPERIENCE

September 2024 - Present

Life Choices Studio

- I'm working in LC Studio, expanding my skills and gaining experience with WordPress. I enjoy creating clean, functional designs while finding the best ways to enhance user experience. Being in a creative environment pushes me to refine my work and explore new approaches to web design.
- I completed a six-week Cisco Cybersecurity course at LC Studio, where I gained a deeper understanding of network security, threat detection, and risk management. The course strengthened my problem-solving skills and gave me hands-on experience with cybersecurity concepts. It was a great opportunity to expand my technical knowledge and enhance my ability to create secure digital environments.

2018-2021

Soup Kitchen

- I had the opportunity to work in a soup kitchen, helping to prepare and hand out food to homeless people. It was a humbling experience that allowed me to connect with others and make a small difference in their day. Seeing the impact of a warm meal and a kind gesture reminded me of the importance of compassion and community. It was a rewarding experience that gave me a new perspective on gratitude and giving back.
